

Project Title: **Module evaluation – T1 Autumn Term 2020-21**

Module Audience: **91**
Responses Received: **XX**
Response Ratio: **XX.XX%**

Report Comments

Student Report

SAMPLE REPORT ONLY - DATA ARE INCORRECT

The Student Voice

The report summarises student feedback to the module **module name**. Thank you if you completed the survey and contributed to these results.

Student feedback is important to the development of modules, and the comments you provide help the teaching staff to make continuous improvements. In the report below, the module convenor was invited to provide responses to the student feedback received, and the results of the feedback will be analysed at staff-student meetings, and will feed into module reviews.

You can also see a summary of how your fellow students evaluated various aspects of the module. Student comments have not been added to the report, but they have been sent to and reviewed by your module lecturers and tutors.

Using the 5-point scale:

Your answers were on a 5-point scale:

- Definitely agree
- Slightly agree
- Neither agree nor disagree
- Slightly disagree, and
- Definitely disagree.

The report highlights the proportion of students who select an Agree response against those that do not select an Agree response. Therefore, a 'Neither agree nor disagree' response counts as a negative response.

You will be asked to complete module evaluations for each of your future modules at Birkbeck, and we encourage you to take the time to do so.

Module convenor comments

The module convenor was invited to provide responses to the student feedback received, answering the three questions below. The results of your feedback will also be analysed at staff-student meetings, and will feed into module reviews.

Module convenor response to: "Please summarise strengths identified in the student feedback"

Comments

Response from Module Convenor

Module convenor response to: "For any question where the score is below 3.5, please identify what actions you intend to take the next time the module will run. If you do not think action is warranted, please explain why."

Comments

Response from Module Convenor

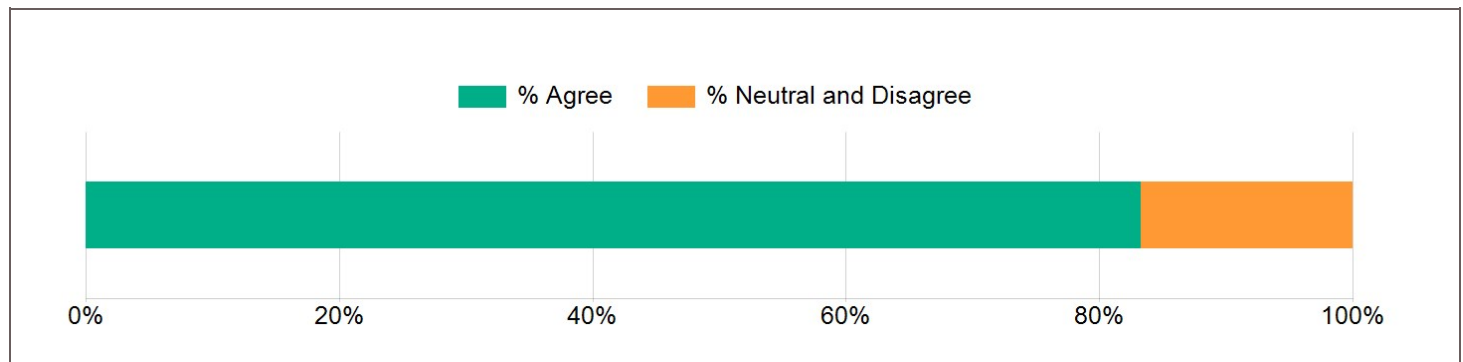

Module convenor response to: "For any other questions in which students have raised issues or suggestions, what actions do you intend to take the next time. If you do not think action is warranted, please explain why."
